

**SINGLE COPY, 5 CENTS**

**Try Made On  
Laval's Life**

VICHY, France, Aug. 27.—(AP)—Pierre Laval, former vice-premier under Marshal Petain and the leading French proponent of strong collaboration with Germany, was shot this morning as he attended an anti-Communist demonstration in the courtyard of the Vichy Hotel Vendôme and was reported tonight to have been seriously wounded.

Laval was shot in the chest. Doctors said tonight they believed he would live.

Shot at the same time although less seriously hurt was Marcel Dauterive, former air minister and Laval's close personal friend and journalist and like Laval a leading collaborator.

Laval, swarthy, white-haired, thin, and with a mustache, who brought Petain and Hitler together after the armistice, was shot both in the arm and body, while Dauterive only a wound in the arm.

**SEATED TOGETHER**

The two were sitting beside each other in the front row of a public demonstration of anti-Communism.

Communists to fight in a volunteer force alongside Germany in the war against Russia when the shooting occurred. The legionnaires were taking oaths of allegiance.

**IN THE** street, the young man arose and started firing, wounding both men before he could be overpowered. He was arrested immediately. The terrorist was identified as a 31-year-old Communist, Paul Celiste.

[This most serious of the anti-communist actions which have been staged with increasing boldness in both occupied and unoccupied France recently was the result of the result in the execution of leading Communists as an example.]

**MAY BE VICTIM**

## ***Soviet May Need***

# Times

By SANDOR S. KLEIN

WASHINGTON, Aug. 27.—(BUP)—Soviet Russia has virtually exhausted its dollar balances in the United States and probably will seek short-term Reconstruction Finance Corporation loans to continue buying war materials here, well-informed sources revealed today.

According to these officials, this does not mean that Russia will be unable to pay for the goods it needs to buy from the United States. Rather, they said, it is a temporary situation. The gold and silver reserves Russia is having in shipped gold and goods to the United States can be exchanged for dollars here must be shipped by rail across the Siberian Vladivostok. And the Siberian

## EXCLUSIVE

Officials here said that the railroads are already heavily taxed for transporting supplies to the eastern Red Army.

John F. Jones said recently the RFC was prepared to extend loans to Russia whenever it was asked.

Meanwhile, the government's program for aiding war-torn Europe and Russia continued these developments.

1—Military mission will leave within the next fortnight for China to re-coordinate long-term aid to that country and to coordinate Sino-American military gulation.

2—President Roosevelt denied

## Nazis Not Yet Over Dnieper Barrier

BERLIN, Aug. 27.—(UP)—Foreign correspondents in Berlin noted that German radio broadcasts today, while claiming smashing victories in the Ukraine, indicated that the German army had not yet crossed the Dnieper river—between which the main army of Russian Marshal Semyon Budennyi stood. German dispatches indicated that the Nazi drive against the Soviet Union had not yet crossed the Volga-Look—appears to be designed to divert the main pressure of a Russian counter-offensive around Smolensk.

## FORMAL OPPOSITION PROTESTS GOVERNMENT ORDER

## Vichy Order Is Defied By French Deputies, Senators

Marching Home Guards

## Effort Of Darian To Move Parliament Out Of Vichy Draws Fire

By RALPH HEINZEN

VICHY, Aug. 27.—(UP)—The French parliament, which this week attempted to effect a formal opposition to the Vichy government, today formally protested a government order that deputies and senators leave the capital. The protest was signed by Edouard Herriot, president of the Chamber of Deputies, and Jules Jeanneney, senate president.

The government decided to move deputies and senators to North Africa in the average meantime after 100 senators and deputies.

## EXCLUSIVE

The move in a ramp congress, and constituted themselves as an opposition body to Marshal Pétain.

The deputies and senators decided to carry on despite a Vichy order abolishing their pay as of Aug. 31 and a law ending the terms of senators and deputies as of May, 1942.

## VIOLATE CONSTITUTION

In protesting the effect of the government to move the parliament, members to Mont Morey today said that the move would constitute a violation of the 1875 constitution which provided that parliament should sit in the same city as the government.

A chamber of deputies and the senate representatives to the Vichy government, Admiral Jean Lucien Darian, said today that the government's move was a violation of the 1875 constitution which provided that parliament should sit in the same city as the government.

Darian was reported to have said that in attempting to move parliament to Mont Morey the government was motivated by the fact that it needed the space occupied in Vichy by the parliament to house the German army. It was understood that Darian refused to reconsider the decision that parliament leave Vichy. But he said that he would be offered to install parliament at Châteauneuf instead of at Mont Morey, which is a semi-remote town in the south.

## London Observers

## Not Optimistic At Russian Reports

## Russian Reports

LONDON, Aug. 27.—(AP)—

Observers in London are not too optimistic over Russian reports. They say there are indications that the Germans are endangering the Leningrad defense.

Moscow's failure to give details of the Russian counter-offensive in the Gornaya area is said to be disappointing.

Authoritative sources say the situation is not regarded as serious until the results of the battle in the Gornaya area are known. If the German offensive there drives southward, it would mean that the whole area behind Kiev is in danger of being captured or cut off.

## Attempt Made On Laval's Life By Communist

Continued from Page One

The German authorities of occupied France announced that the entire public would be held responsible for acts committed against French and German authorities.

Reports tonight said that doctors had extracted the bullet from the 58-year-old Laval's chest, and that he was immediately afterward taken to his wife by telephone. Laval is at the Laval estate near Vichy. Mrs. Laval is believed to be in her husband's bedside.

## ANTI-RED COURTS OPENED

The showing occurred on the very day that the anti-Communist courts began functioning to handle the cases of many hundreds arrested in both occupied and unoccupied France in growing manifestations of opposition to Vichy collaboration with the Germans.

A number of persons described as Jews and Communists were arrested today in the north ward of German occupied Paris in a continuing campaign which has been going on since the beginning of the war.

Colin's very assembly, told supporters he had joined the Legion and that he would have an opportunity to shoot the collaborationist leaders.

## BORN IN BRITANNIA

He said he was born in Britannia province at Calcutta Aug. 12, 1912, and that he arrived at Vichy this morning as a volunteer for the purpose of "nobbling down" Laval.

The reactor Laval, 44, has been a leader of the collaborationist group since the armistice, when he was made viceroy of the Paris region and designated successor to Pétain.

But in a sensational shake-up last Dec. 12 Laval was ousted. Since then he has spent most of his time in German-occupied Paris, coming to Vichy only for occasional visits.

## OCCURS NEAR PARIS

Vichy, scene of the shooting, is just a few miles outside Paris. The Vichy shootings climax a series of disorders which have been occurring since the armistice.

Unoccupied France in recent weeks as a result of demonstrations and sabotage against German rule and collaboration with Germany.

The activities of the troops against the demonstrators in Germany have been increasing in intensity.

More than 10,000 Communist Jews and others politically opposed to German rule have been arrested in the past few days, and several persons have been executed.

For weeks Laval has said that he will be finished this year with a German ally.

His pro-Nazi friends in Paris have considered seriously the possibility of his return to power in the Vichy government at the end of the war.

France could negotiate a positive alliance with Germany for the future.

Actually, under actual status quo, his order as vice president Dec. 12, Laval has continued political relations with many rightists who have been doing office on the fourth floor of a Champe Elysee building in Paris.

## Protein Content Of Western Wheat Higher This Year

WINNIPEG, Aug. 27.—(CP)—

Wheat protein content—index of baking quality—of Western Canadian wheat is 1.2 per cent higher than last year, according to an examination of 1,400 samples of new crop wheat, the board of grain commissioners laboratory reported today.

Number of samples used and average protein content for the province is Manitoba 24.2 per cent, Saskatchewan 23.1, 23.6 per cent, Alberta 23.1, 23.6 per cent.

The percentage values are respectively 1.2 per cent higher than last year, and 1.2 per cent higher than corresponding values for 1940 made available by the report said.

## FIRST BIRTHDAY OF FREE FRANCE TO BE CELEBRATED

## General De Gaulle Flies To Africa For Anniversary

Brazzaville Residents  
Wear Either Metal "V"  
Or Cross Of Lorraine

By GEORGE WELLER

Copyright, 1941, by the Chicago Daily News, Inc., and  
The Edmonton Bulletin

BRAZZAVILLE, French Equatorial Africa, Aug. 27.—(CPN)—This sleepy little Congo town of 2,500 whites and about 10 times as many blacks is laying out its whitest linen, sprinkling its doorsteps and stamping in jungle dance rehearsals today for the approaching birthday of Free France.

This week French Africa will mark its first anniversary as a capital of liberated France and the only Nazi-defeated European power still possessing a capital upon its own soil.

Somewhere between the barren Syrian deserts and the impenetrable Congo wilderness, the Free French forces, the flying home for the celebration which is expected to take place shortly in honor of the successive accessions a year ago of the Chad, Cameroons and Congo regions to the double-barred cross of Lorraine.

Finns Claim Russ  
Abandon Tallinn

TALLINN, Aug. 27.—(AP)—Finnish observers claimed today a tremendous blow on the southern horizon which could be seen from Finland indicated Russian forces were devastating Tallinn preparatory to withdrawing from the city under German pressure from the east and south.

The glow on the horizon first was seen last night and continued into this morning, observers said. Tallinn, capital of the Sovietized Estonia, is directly across the Gulf of Finland from Helsinki, a distance of 50 miles.

Observers said they heard the sound of artillery fire and interpreted it to mean German gun had found the range of the Estonian capital.

The last Soviet broadcast from Tallinn was heard at 8:30 a.m. Tuesday morning, the newspaper Helsingin Sanomat said.

Canada Gets First  
'Catalina' Airplane

OTTAWA, Aug. 27.—(CP)—A huge, twin-motored "PBV" flying boat was in Ottawa Tuesday for delivery to the Royal Canadian Air Force, first of a substantial order of this type of plane which is being used for operational purposes in and around Canada.

Known to the Royal Air Force as the "Catalina" Flying Boat, this type of airplane has given outstanding service in the R.A.F. It has a flying range of 3,500 miles. Canada will have a large fleet of these machines as deliveries continue, 50 to be purchased from the Consolidated Plant in California pending manufacture in the Dominion.

The machine arrived here from California after a non-stop flight of 15 hours. Others will arrive from time to time until the order is completed.

Winnipeg Citizen  
Offers Bomb  
Two Inventions

WINNIPEG, Aug. 27.—(CP)—C. Nelson Pogue of Winnipeg, who invented a carburetor which he claimed would take a standard motor car 200 miles on a gallon of gasoline and which was later reported stolen, announced Tuesday night he and his associates have offered two inventions for saving oil and gasoline to the Canadian army.

He said he offered original officials in Ottawa a carburetor that will increase mileage per gallon almost 100 per cent and an oil reclaiming which he said would effect a material saving in oil consumption.

It has been estimated that the average person knows from 20,000 to 30,000 words.

## R.A.F. Bombing—From 100 Feet

This picture gives a dramatic record of the sensational daylight air raid on the huge Knappeck power station at Cologne, Germany. The R.A.F. bombers flew at a height of less than 100 feet at times. A plane descended even lower to get this record of the damage done. Many direct hits were scored. The wing of the plane can be seen, lower right.

Japan Warned  
Not To Touch  
U.S. Shipments

Continued from Page One.

"The Soviet government does not see around for any Japanese concerns over the fact that goods purchased from the United States, such as oil and gasoline, which, Mr. Minister, mentioned, will be sent to the Soviet Union by ordinary trade routes, among which are (Russian) Far Eastern ports.

"The Soviet government considers it necessary to declare that efforts to hinder normal trade relations between the Soviet Union and the United States by Far Eastern ports could not be considered other than an unfriendly act toward the Soviet Union.

UNMISTAKABLE WARNING  
At the same time, the Soviet government affirms that Soviet goods purchased from the United States are destined above all for growing nations, the work of the Soviet Union in connection with the defensive war imposed on the Soviet Union and the current economic requirements of the Soviet in the Far East.

By his statement, Molotov put on record unequivocally Russia's intention of selling supplies from the United States by the normal route, to Vladivostok, and given Japan an unmistakable warning not to interfere.

At the same time he had implicitly assured Japan that Russia was importing United States war supplies for use in western Russia against the Germans, not to build its military establishment in the east facing Japan.

NOT BOUND TO AID NAZIS  
Further, he had taken the opportunity to emphasize to Japan that Russia was fighting a purely defensive war.

This was an important factor because Japan, though bound to Germany by an alliance, has a neutrality treaty with Russia.

Thus Japan is not bound to aid Germany against Russia unless it chooses to decide that Russia attacked Germany.

In their neutrality pact considered then a great diplomatic victory for Japan, Russia and Japan agreed.

"Should one of the contracting parties become the object of hostilities on the part of one or several third powers, the other contracting party will observe neutrality throughout the duration of the conflict."

U.S. WILL INSIST  
POLICY MAINTAINED  
WASHINGTON, Aug. 27.—(BUP)—Secretary of State Cordell Hull indicated to a press conference today that the United States will insist on maintaining its policy of freedom of the seas in shipping supplies to Japan.

Japan, which commands the sea approaches to the Russian Siberian port of Vladivostok, has protested against shipments to that territory on grounds that it would create a "delicate and embarrassing" position for the Tokyo government.

Hull declined to make a direct statement on the Japanese attitude. But in answer to a question whether the United States would insist on its freedom of the seas policy in the Pacific, he answered that until the policy is revoked, reporters can assume that it is in force.

JAPS TAKE 'SERIOUS' VIEW OF SITUATION  
TOKYO, Aug. 27.—(AP)—Dorei, a reliable source, said the Japanese government had made representations to the United States and Russia against shipments of American aviation fuel to the Soviet via Vladivostok.

The government, said the news agency, was taking a serious view of the situation.

Reports both Russian and American ships are transporting not only gasoline but other supplies through Vladivostok to Japan, said a "greatly irritating Japanese statement."

The fact that high octane fuel denied Japan was reported "passing under the very nose of the Japanese" was described as especially disgusting.

Dorei asserted that MANROU

Iranian Plea  
To Stop War  
Is Received

By DANIEL DE LUCE

TEHRAN, Iran, Aug. 26.—(DeLuce)—(AP)—It was reported reliably today the British and Soviet ministers, after an audience with the Shah, have transmitted to their governments an Iranian plea that the war cease to get this record of the damage done.

A few Germans in "undependable technical posts" would be kept for a while until substitutes could be trained to take their places, under the reported offer.

TEHRAN HAS BLACKOUT  
Premier Ali Mansur in a 10-minute address before parliament declared the Russians were bombing "open, undefended towns" in Azerbaijan province along the Russian frontier. He told the legislators the Soviet army was driving toward Teheran, Iran's second largest city, 60 miles within the frontier.

"With a great number of troops," he said, "the Russians said Wednesday they have taken Teheran."

British forces, he said, attacked the ports of Bandar Shapur and Khramshahr in southwestern Iran and took by surprise war ships and damaged them.

Their aircraft, the premier continued, "have thrown bombs at the city of Ahwaz (in the heart of the oil fields about 75 miles northeast of Bandar Shapur). Their motorized units moved from Iraq toward Kermanshah."

"Wherever the transnational armies encountered the Iranian forces, they naturally were slain and fighting."

STATIONED AT ABADAN  
The major Iranian force was stationed, as the attack came, in the districts around Abadan to defend one of the world's richest oil fields.

British operated (The British forces now are in complete control of these fields after some fighting). Iranian garraons also were stationed along the Bahrein frontier on the east.

Germans in Iran appeared anxious to test their evacuation of Iran through Turkey but prevented. Scores were at the Turkish legation seeking courier visas to travel through Turkey. A German diplomat asked Sunday for Turkey to be unable to cross the frontier and returned.

A few 300 men, women and children with German passports began collecting today at the German summer estate of Shermans, outside the capital, preparing to leave.

King Plans Work  
On Correspondence

LONDON, Aug. 27.—(CP)—Prime Minister Mackenzie King after spending a busy day Tuesday with the Canadian War Division, planned to remain today in his hotel suite dealing with correspondence which reached him during his absence "somewhere in England."

After returning from his visit to the troops, Mr. King left his hotel last night to express his condolences to Lady Willingdon, widow of the former governor general of Canada with whom the prime minister was closely acquainted for many years.

No Information  
Australians Are  
Fighting In Iran  
CANNBRIA, Aug. 27.—(AAP)—Prime Minister Menzies told parliament today the Commonwealth had no information suggesting Australian troops are taking part in the Iran campaign.

He added he had every reason to believe no Australians are in the region. Replying to a question, Mr. Menzies said that before Australian forces are engaged in any new theatre of war the Australian Government would be consulted.

For Home Service  
MELBOURNE, Aug. 27.—(AAP)—It was announced Tuesday that the army is enrolling the 1923 class of trainees for home service. Formerly the lowest age group called for service was 19.

The Guatemalan Thyssen mill attains a wingspread of more than 12 inches.

# Quick Repairs Can Now Be Made To Bren Gun Carriers

Duke Of Kent Welcomed To New York

The Royal Highness the Duke of Kent, is welcomed to New York City by Mayor Fiorello H. LaGuardia. The duke in a plane of the Royal Canadian Air Force, landed at La Guardia field where this picture was made. He took an automobile for Hyde Park where he spent the week-end with President Roosevelt.

## Oklahoma City Council Refuses Lindbergh Hall

OKLAHOMA CITY, Aug. 27.—(AP)—Charles A. Lindbergh will speak in Oklahoma Friday "even if he has to use a new pasture," a spokesman for the America first committee asserted Tuesday after the city council cancelled a permit for use of the municipal auditorium.

"If we can't get a place here we'll go somewhere else. But he definitely will speak, and it will be in Oklahoma," added Herbert K. Hyde, Oklahoma city chairman of the America first committee.

The council acted unanimously on protests submitted by two local American Legion posts, the Women's Ambulance and Transport Corps of Oklahoma, Harmony Chapter No. 5 of the American War Mothers and the Knights of Pythias. Councilman A. P. Van Meter, moving the cancellation, said:

"We're not denying the right of free speech by refusing to rent a public building.

"Let him go elsewhere to speak, and when he gets tired talking, he can go home."

## Nazi Attache Is Believed Fleeing Argentine Hearing

BUENOS AIRES, Aug. 27.—(AP)—Guillermo Sansever, press attache of the German embassy, left by plane yesterday for Rio de Janeiro just as he was called to testify before the congressional committee investigating anti-Argentine activities.

Orestes Confalonieri, administrative secretary of the committee, said Sansever's sudden departure made it look as if he were fleeing.

## Trans-Canada Air Traffic Increases

WINNIPEG, Aug. 27.—For the fifth month in succession this year Trans-Canada Air Lines continues to report new high records for air mail and passenger carried.

The figures for July were released Tuesday by O. T. Larson, vice-president. Passengers carried in July numbered 6,628 compared with 6,558 in June and 5,098 in July, 1940.

Airmail carried in July was 129,148 pounds, more than 10,000 pounds ahead of June and more than double the load for July, 1940.

Air express volume was the heaviest carried in any period in T.C.A. history also, and weighed 20,387 pounds more than 5,000 pounds ahead of June.

While express shipments were little larger numerically, the individual shipments were heavier.

## Captured British Generals Devote Time To Gardens

LONDON, Aug. 27.—(CP)—Four British generals, an air marshal and a flight-lieutenant captured by the Italians are spending their time making chickens and growing vegetables at a villa near Rome, according to letters reaching London.

Gen. Carton de Wiart, 60-year-old one-eyed leader of the British expeditionary force in Norway, was chosen "commander-in-chief of the vegetable garden" and hopes to have fresh onions, carrots and lettuce soon.

In a letter to his daughter, Mrs. R. Walker, the general said he spent two hours in the water after his holiday in the Mediterranean last April and that the Italians were treating him "excellent."

## Polio Cases

FREDERICTON, Aug. 27.—(CP)—A case of infantile paralysis reported from Harvey Station, York County, and a case from Southampton a week old brought the total of cases reported in New Brunswick to 162 Tuesday.

## "Plastic" Type Airplanes May Be Constructed

OTTAWA, Aug. 27.—(CP)—Manufacture of all-wood and fabric airplanes of the so-called "plastic" type may be the next step in Canada's expanding aircraft production program. If the necessary approval is forthcoming from Royal Canadian Air Force officials.

It was learned authoritatively Monday that decision on this point may be reached this week and a plant at Belleville, Ont., is being prepared to go ahead with mass production if the decision is favorable.

**GREATER SPEED**

An all-wood Anson fuselage, assembled at the air force operational headquarters at nearby Rockcliffe, has been exhaustively tested and proven, delivering about 10 miles an hour greater speed than that of the orthodox metal fuselage Anson now in general use.

These fuselages are not plastics in the generally understood sense of the word, since they are not moulded from a composition but are made of laminated woods held together by a phenol-formaldehyde resin substance and assembled under tremendous air pressure.

**ARE QUICKLY MADE**

This is the system of plastic manufacture perfected by an American engineer, E. L. Vidal, at the Bendix field in New Jersey where the fuselage now being tested here was manufactured.

Lightness of aircraft so manufactured gives a greater carrying capacity of fuel, armament or personnel. Raw material is readily available. They are quickly made and, presumably as durable as could be desired, production officials said.

Canada's Anson production, subject of debate and criticism in the House of Commons last spring, still lags far behind the originally announced schedule, it was said. Only a few machines have been delivered.

## Toronto Death

TORONTO, Aug. 27.—(CP)—Brig. Gen. Charles H. Mitchell, 69, recently retired as dean of the faculty of applied science and engineering in the University of Toronto, died Tuesday night.

A "colony" of African insects has been discovered atop a Scottish mountain, 4,000 feet high. The insects found were of a variety formerly believed to be extinct.

## Brain-Child Of Three Men Removes Common Cause Of Breakdowns

By JAMES A. MACLEAN

WITH THE CANADIAN ARMY ON MANOEUVRES, IN WESTERN CANADA, Aug. 27.—(BUP)—The waddling Bren gun carrier broke its caterpillar tread squarely in the middle of a muddy puddle. Swearing, the goggled driver-mechanic climbed out and sat profanely in the water, faced with a two-hour task of replacing the shattered tread.

But it was worth it—for Capt. his feet, his greasy monkey suit dripping dirty water, he swore by the gods of war it was the last time he ever would do that particular job. And, oddly enough, it was.

For the luckless driver's wits reached the ears of his superior: Lieut. Jim Davies, of the Winnipeg P.C.C.I., Capt. G. Howarth, of Winnipeg, and Company Sergeant Major Taylor of Vancouver—a new invention was born that night.

Military regulations prevent an accurate description of this tool—now in the hands of the Ford Motor Company of Canada for mass production. When Hitler's tanks shed a tread they are abandoned or destroyed. And he would love to get his hands on this latest Canadian brain-child. It is just enough to say that where it once took three men two hours to repair a shattered

tered Bren gun carrier tread—one man now can make all the necessary repairs, completely unaided—in the amazing time of ten minutes.

New, thanks to the combined brains of three Canadians one of the most common causes of breakdown in the field has been virtually removed. Officers say that Canada's mechanized forces now would be able to effect quick repairs under combat conditions where once their unit would have been useless.

When I chatted with two of the trio on manoeuvres today, neither would admit giving birth to the idea. "We all worked on it," was the way Davies explained things. Howarth, the ordnance man, did the blacksmith work, and Davies, 15 years a Winnipeg detective, and Taylor helped. (Taylor now is at

Gordon Head in training for a commission).

**FRAY MODEL CRUISE**

The first model of the tool was crude and rough. But it did the job, well enough to attract the attention of the high-ups in the ordnance department, who relayed it on to Eastern Canada for study and mass production.

**Aluminum Donations**

WASHINGTON, Aug. 27.—(AP)—The government announced Tuesday that \$700,000 pounds of "pots and pans" donated in the defence aluminum drive already have moved toward defence production with indications the national collection would total nearly 14,000,000 pounds.

Whistling is against the law in Ireland.

## ADVENTURE IN CANADA'S NORTH COUNTRY

## Boat's Make Canoe Trip Of Story-Book Proportions

## 200-Mile Triangle Journey Is Completed By American Voyageurs

By JOHN E. BIRD

WINNIPEG, Aug. 27.—(BUP)—A hardy group of young American voyageurs has brought realization to youthful dreams of adventure and travel through Canada's vast, trackless north country. Based in Winnipeg for weeks of hardship in the uninhabited country below Hudson Bay, the youths arrived back in Winnipeg after a canoe trip of story-book proportions. Ranging in age from 13 to 22, they told an exciting tale of a seven week trip through Canada's northern wilds—a 1,200-mile triangle journey across canoe and portage that took them as far north as York Factory on the shores of Hudson Bay.

The leader of this group of tender-aged adventurers was six foot, 25-year-old William Webber, a senior at Harvard University, Bill—or "Prezler"—to his friends—came from Des Moines, Iowa. He was the oldest member of the party.

The youngest member of the group was 13-year-old Dick Lynch, the son of a Des Moines dentist. The others were Alexander Sinclair Stewart MacMillan, Junior, 19, of Vermont; Kenneth B. MacMillan, 18, of Boston; Bob Webber, 18, brother

## EXCLUSIVE

of William Webber, and Fred Lawrence, 21, of Boston, and a graduate of Harvard.

## 1200 MILES

From the head of Lake Winnipeg, the lads struck out for God's Lake, 180 airline miles north and east. They then headed their heavily laden canoes northward to York Factory, 175 miles north of God's Lake. From York Factory it was up the Nelson river for another 200 miles back to Norway House. Measured by water, the youths travelled over Canada's winding streams for a distance of approximately 1,200 miles.

The young voyageurs left Winnipeg for Norway House at the head of Lake Winnipeg on June 23 with five hundred pounds of food and two hundred pounds of equipment. They arrived at Norway House on June 28 aboard the Red River steamer Keosauqua.

## HIRED CANOES

The lads hired two Indian canoes. They loaded them with food, medical supplies and equipment and plunged into Canada's northern wilderness June 28.

The first lap of their adventure took them to Island Lake, 70 miles north and east of Norway House. This was one of the toughest parts of the trip. Fighting armies of mosquitoes, they traversed a hacker's route of 32 small portages and difficult portage portage of four and one half miles. Frequently they had to pull their canoes up the swelling rapids, at some points wading waist deep in the boiling water.

The young adventurers arrived at Island Lake July 2 and after a brief rest they set out for God's Lake gold mines on the Lake. There the company engineer took one look at their food supplies and turned them loose in the company storehouse with the comment: "You can't eat it all boys."

"You can't eat it all boys," the boys then shot their newly laden canoes down the Shonawa and Hayes rivers to York Factory on the shores of Hudson Bay. They arrived at the northern outpost on July 27 and spent eight days on the most adventurous part of their 1,200-mile journey.

## SCHOOL OF WHALES

They paddled along the coast of Hudson Bay to the mouth of the Nelson river and then up the Nelson river to York Factory. During the trip from York Factory to the mouth of the Nelson they passed through a school of white whales.

Whales trouble waited in the Nelson river. The rapids were so bad that they spent the first three and one half days portaging a distance of 60 miles. And in the confusion of frequent portaging, they lost their only compass. There was no moon and the remainder of the trip had to be directed by the stars.

## TRIP WAS "TASTY"

Sixty miles from the mouth of the Nelson, the lads finally were able to place their canoes back in the river. And from then on the trip was "tasty." They arrived back at Norway House on August 12.

Norway House buzzed with excitement when the news spread that a group of youths had come up the Nelson from Hudson Bay in two canoes. Holidays barred the boys with questions. When they gazed upon the widest-looking group of youngsters they had never arrived at Norway House. All boys were deeply tanned. Their hair was long and matted, their hands calloused and every one but 13-year-old Dick Lynch boasted a long grey beard.

Naturally the boys said that their trip had been planned and directed by Bill Webber. Originally only four boys were going to make the journey. But after Bill told his friends about the proposed adventure, they decided the father of 13-year-old Dick Lynch—argued Bill to take him along and Bill agreed.

Later Bill was lecturing on the planned trip at a meeting attended by the mother of young MacMillan. Mrs. MacMillan became interested in the same voyage and urged that her son be taken along. Again Webber agreed.

Webber said he spent \$400 on provisions. The food he used included flour, sugar, coffee, por-

## Tourist Trade Shows Decline Report Reveals

OTTAWA, Aug. 27.—(AP)—At the beginning of the tourist season, there was every possibility that the 1941 Canadian tourist traffic would perhaps reach an all-time high. Walter P. Zeller, executive assistant to the minister of national services, stated today, "but the latest reports show a definite decline in the rate of increase over last year."

Early reports were encouraging, according to Mr. Zeller, in that 1939 figures were excellent whereas reports from 13 border points representing better than 75 per cent of the total border traffic, give the total number of 60-day permits for week ending August 8, this year, 39,383, compared with 28,300 for the corresponding week last year, and 44,800 for the corresponding week in 1939. In terms of percentages, it is interesting to note that for week ending July 13, 1941, the total number of 60-day permits issued at the same 13 border points amounted to 86 per cent of those issued during the corresponding period in 1939. However, for week ending August 9, this percentage has dropped to 80 per cent.

For week ending August 15, 1941, reports from eight border points available to date show a total of 36,185 as compared with 30,376 for the corresponding period in 1940 and 40,463 for the corresponding period in 1939. The number of permits issued at Windsor, Ontario, one of the principal ports, for the same week were less than in 1940; the figures being 9,119 this year, as compared with 9,599 for the corresponding period in 1940 and 13,135 for the corresponding week in 1939.

The trip was not a hasty planned adventure. Everything was carefully thought out so that if any incident occurred, the boys would be prepared. They carried medical supplies of all kinds. Asked if the boys and Jack well together during the journey, Webber replied: "We knew we had to be together for a long time, and that it would be no use fighting and arguing. The only time I ever got mad was when I saw \$20 down the rapids."

Asked if the boys and Jack well together during the journey, Webber replied: "We knew we had to be together for a long time, and that it would be no use fighting and arguing. The only time I ever got mad was when I saw \$20 down the rapids."

## Few Soldiers In Province Go To Harvest Fields

CALGARY, Aug. 27.—(CP)—Very few soldiers from Alberta army units have applied to leave to go harvesting, it is stated at Military District 13, Tuesday. To obtain permission, the men must have been employed as wage field farmers before being called to arms.

The harvest leave is for a maximum of four weeks. The soldiers do not receive pay during that period, nor do they receive medical or dental treatment.

## BEATIN' THE BLITZ

ST. JOHN, N.B., Aug. 27.—(CP)—New Brunswick motor vehicles may carry license plates made of plastic material in 1943. A. W. Harbour, deputy minister of public works, said Tuesday. The department is trying to conserve the steel that would normally be used, he explained, for war purposes.

## Plastic Plates

## Press Support Of War Effort Lauded

OTTAWA, Aug. 27.—(CP)—Three cabinet ministers and a deputy minister gave thanks Tuesday to Canadian newspapers and periodicals for their co-operation in Canada's national war effort, at a government dinner to a group of 60 editors touring eastern Canada.

Defence Minister Laurier, Air Minister Power and Munitions Minister Howe spoke for the government, describing some of its problems and developments in the war effort and warmly thanked the publishers for their support.

Mr. Justice T. C. Davis, associate deputy minister of national war services, presided at the dinner. W. Rupert Davies, president of The Canadian Press and publisher of the Kingston (Ont.) *Wing-Standard*, replied for the daily newspapers; Walter Laage of *Granby Star*, president of the *Canadian Weekly Newspapers Association*, for the weeklies; and Floyd Chalmers of the *Financial Post*, Toronto, for the periodicals.

All assured the government of the united co-operation of the press in working for the greater efficiency of Canada's war effort.

## Airmen Killed

BRANTFORD, Ont., Aug. 27.—(CP)—LAC Daniel Gordon May of Toronto was killed instantly Tuesday night when he walked into the whirling propeller of an airplane at No. 3 service flying training school here. He was the son of Mrs. R. E. May of Toronto.

The origin of the *Examiner* remains a mystery despite intensive research during the past 30-odd years.

It'll soon be fall. Maw, and we'll be seeing the last of the robins and summer relatives!

# Veteran Gives Up Big Job To Serve Country

JOHN LEBLANC, ALBERTA, 35, has left a job running a huge Alabama plantation to become administrator of a Canadian army disciplinary barracks that he says he is known to as the Dominion's best specimen of its class.

RSM. E. E. Barnard is not only one of the most popular men with the ranks in this big training camp despite his job, but officers say his little establishment is the most efficient model barracks. Provost corps men are sent from all parts of Canada to observe its operation.

## FORMER IMPERIAL

Soft-voiced and studious, the former Imperial Army officer who handles the soldier-women's camp is a far cry from the conception of the bullying army officer.

The origin of army misdemeanors is at least partly due to defects, are sought out by RSM. Barnard. On the wall of the barracks is a big graph charting the course of camp law infractions. From it, the sergeant-major can determine the factors influencing crime trends.

For instance, before Christmas the graph pointed sharply downward as soldiers went on their best behavior in expectation of holiday leave. After that, it swung sharply up. Then, some months back, there was a fall from the camp for overseas. Morale soared, and the barracks was almost empty.

## PROBATION MANAGER

Two years ago, RSM. Barnard would have smiled if anyone had suggested his present job. Then he was manager of a \$1,000,000 plantation owned by a multi-millionaire near Mobile, Ala., with a staff under him varying seasonally from 40 to 175 workers.

When war broke out he got into line of shrimps and headed for Ottawa. He had been a regimental sergeant-major in the imperial army in the last war, and he wanted the same position in this one. Army officials said he couldn't have it, but he could be a probation manager.

Barnard secured the officers by turning this down and holding on to their deserts for six weeks until he got it.

# Canada Is Seeking Priority Shipping

OTTAWA, Aug. 27.—(CP)—A recommendation that Canada should accord equal priority ratings with the United States for shipping space in American vessels was understood Tuesday night to be under formal consideration by both governments.

The recommendation was formulated by the joint economic committee of Canada and the United States at a meeting here Aug. 8, a Canadian committee spokesman said.

Under provisions of the joint proposal, Canadian import and export cargoes plying the Pacific and south Atlantic trade routes would receive approximately the same priority rights for shipping space in United States vessels as American cargoes.

Transfer of Empire ships to the north Atlantic service shortly after the outbreak of war left Canada dependent almost wholly on the United States for transport of cargoes through the usual channels.

The next meeting of the joint economic committee will be held in New York Sept. 18-20. Shipping problems are expected to be discussed further, together with research topics assigned at the last meeting.

# East Indies Takes Measures To Curb Japs' War Power

BATAVIA, N.E.I., Aug. 27.—(AP)—The Netherlands East Indies government, like Great Britain and the United States, is applying anti-Japanese measures in order to keep from contributing to the maintenance and rise of Japanese war power. Minister H. J. Van Mook told the People's Council yesterday.

Van Mook, given ministerial rank to take charge of economic negotiations with Japan which failed to satisfy Japanese demands, stressed in answer to a question

# Striking Seascape

National Maritime Union sailors are pictured in Duluth, Minn., harbor as they picketed the steamer "Jupiter" in rowboats. The strikers demanded union recognition. Meanwhile, ship was unable to obtain crew replacements.

# Agitators Led Arvida Strike Handful Of Men Outfight Nazi Submarine Crew

By D'ARCY O'DONNELL  
CHICOUTIMI, Que., Aug. 27.—Plant superintendent M. L. Carey testified Tuesday before a royal commission investigating a five-day strike at the Aluminum Company of Canada plant at nearby Arvida last July, that he had no concrete evidence there were agitators among the strikers, but the workers appeared to be organized until they reached the shore and then the organization fell apart. He did not explain what he meant by the workers.

Carey, one of four witnesses at the second day of the inquiry, said he had nothing to do with the inquiry, and his statement "except suspicion." He was replying to questions of Alvin Geoffrey, counsel for the company, and E. M. MacDougall, counsel for the commission.

MacDougall asked: "Were there any other reasons for the strike other than the dissatisfaction of the men to do bonus wages and working conditions?" Carey replied: "No, except that the number of men and inexperienced men was very high. One of the facts, I don't know of any specific cause."

On the day, J. M. Roberts, safety engineer at the plant, testified that he had "the impression that several agitators were among them. They had no leader as far as I could see."

Roberts testified that the main demand of the men was for an increase in wages.

# Interpreting War News

Continued from Page One  
minded to use their power to the full, while Hitler struggles to bring his people to the aid of the Japanese. In the far east, as well as in Iran, what London terms a "no nonsense" policy continues to manifest itself almost daily. British forces in the South Pacific have just been further reinforced, even as the Japanese had made a decision at Prime Minister Churchill for his warning to abandon aggression. Arrivals at Singapore included the largest single group of Royal Air Force personnel to reach there in a year.

NO COMPROMISE  
China concurrently has been reassured by Secretary of State Hull that in the continuing diplomatic talks with Japan there will be no compromise of American principles and no agreement that would permit Japan to enjoy the fruits of aggression.

All the while American equipment and management appear to be rapidly developing the Burma road to its full capacity.

This steady unfolding of British and American measures to restrain Japan-Tokyo prefers to call it an emboldened plan—makes the Shanghai report especially interesting reading.

That "our policy corresponds to that of Britain and the United States, which is understandable because Japanese threats also are affecting their interests."

## Hold Everything

# Mercy Packages Distributed To War Prisoners

Reporting from the centre of mercy in war-torn Europe—headquarters of the International Red Cross—Betty Sargent, Associated Press staff writer, tells of the movement of friendly packages from the millions left in prison by war—EDITOR.

## By BETTY SARGENT

GENEVA, Aug. 27.—(AP)—The packages—mercy—of food, clothing, tobacco, soap and books—are moving smoothly to the millions left in prison by war in the west.

But officials of the International Red Cross already are grappling with the problem of new armies of prisoners on the eastern front between Russia and Germany.

Postal bags of prisoners' packages are piled high in the warehouse of Geneva's railway station, and a dozen Swiss postal clerks work swiftly and carefully to dispatch them to their goals.

## DELAY IN RECEIPT

The packages come from relatives and friends, from Red Cross chapters or other humanitarian agencies in the homelands.

Transport difficulties across Spain held up British Red Cross packages for months at a time early in the war, and even now, usually takes about four months before packages from the United States reach the camps.

Every British prisoner, now, however, is able to receive at least one package a week. During the first six months of this year 330,000 parcels arrived in Geneva for distribution to British prisoners in Germany, Italy and Occupied France.

## INTELLECTUAL NEEDS

In Geneva, damaged parcels, averaging about two per cent of the total, are put aside, their contents carefully sorted and everything useful forwarded in bulk to the camps.

Almost as important as physical needs of prisoners are their intellectual and recreational needs. Already more than 25,000 books have been sent to prisoners' camps of which 12,000 were sent directly by the International Red Cross.

Sports equipment and musical instruments are other welcome gifts in prison camps, where "barbed-wire boredom" is a constant danger.

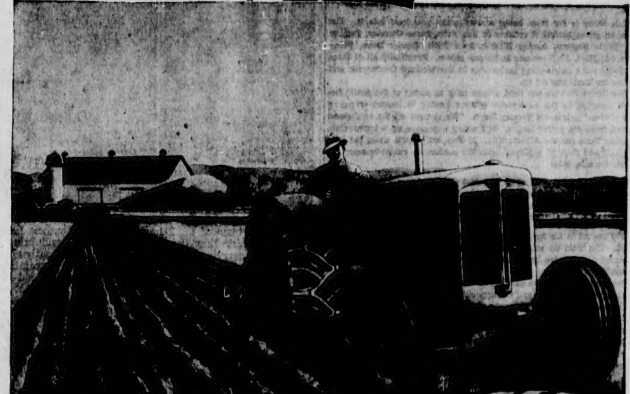

## Ex-Prime Minister Of Poland Is Shot

LONDON, Aug. 27.—(CP)—The Polish Telegraph agency said today information that Professor Casimir Bartel, former Prime Minister of Poland, had been shot by the Gestapo in Lowow has reached the Polish government in London. Bartel, 50-year-old professor of mathematics in Lowow technical college, became chairman of the Lowow municipal council when the Soviets entered Lowow in 1939 and did much to smooth the hardships of occupation.

Canadian troops as part of a mission to the Glenn Martin bomber plant, the Duke left Washington Tuesday night for Hamilton.

The Duke was the guest of the National Press Club at an informal cocktail party last night and later attended another party at the British embassy. Among the guests were Leighton McCarthy, Canadian minister to the United States.

The king salmon has been known to weigh as much as 100 pounds.

# CANADA . . . Granary of the Empire . . . pledges its fields to Victory

Food for the Dominion . . . for the British Isles . . . for the Empire and its fighting men . . . here is a challenge that calls on every resource of Canadian Agriculture. In answering this challenge . . . in devoting every effort to production . . . Canadian farmers are contributing vitally to victory.

Dunlop-Canada, too, is working on this home front by supplying to Canadian Agriculture the world's finest tires for farm use: the famous Dunlop Farm Tractor Tire with "the greatest grip on earth"; the Dunlop "Universal Trakrip" for general purpose trucks; and the Dunlop "Extra Traction" for passenger cars and light trucks.

Ask your Dunlop Dealer about the famous Dunlop "Farm" with its 2000 solid rubber teeth. There's a Dunlop for every purpose and prices that challenge comparison in every price range.

Play safe. Specify DUNLOPS on your new car or truck

Fit DUNLOP "THE WORLD'S FINEST TIRE"

# What's Going On in RUSSIA?

Follow the Eyewitness Reporting of A. T. STEELE

Russia is locked with Germany in the greatest battle in the history of the world. Conceivably, the destiny of two hemispheres wobbles crazily on the outcome. And yet—in the welter of Soviet claim and Nazi counterclaim—reliable news is hemmed and halted within the haze of the holocaust. Is Hitler headed for conquest or collapse? What's the present picture? What are the facts?

Read the clear-cut, first hand reporting of A. T. Steele—recently arrived in Russia.

Arch Steele has been America's ace correspondent in the Far East for nearly a decade. He has dared death repeatedly so his readers back home might be first with the news. A tireless fact-searcher, he is noted for his authoritative stories from almost every part of the Orient—for his brilliant, life-risking world scoop when the exterminating Japanese massacred the Chinese at Nanking

—for his reporting through thousands of miles of traveling while covering—as perhaps no other living newspaperman has covered—the Sino-Japanese war. And now, Steele—long the most quoted newspaperman in the Far East—is in Russia bringing you realistically and reliably, the graphic story of where Russia stands today.

Don't fail to read A. T. Steele's on-the-spot reporting of what's going on in Russia.

"Okay, Sarge, I'm ready for that tank practice!"

# GRID SEASON OPENS AT WINNIPEG

## Blue Bombers Turn In 19-12 Win Over Columbus Bulls

### Girls Start Softball Series

## Regina Caschews Win 3-0 Over Big Orange Buffaloes

Regina Caschews shut out Big Orange Buffaloes 3-0 at Kingsway Park on Tuesday night in the first of the three games being played here. This afternoon at 3 o'clock they play Army and Navy. This evening at 8:45 they go against an All-Star team picked from the two city senior clubs.

It was good checking by Kay Bennett which earned the key for the Saskatchewan girls with Denny Newman hitting in all three runs and they Shriver and Davis were adding the necessary battering punch.

The girls appeared to lack a little of their usual pep and Anna-Bele Thompson's support was a bit shaky at times. The four hits they got came in different innings with Nettie Geddes banging out the longest one of the evening—a scorching three-egger.

The Nut Housers took a one-run lead in the opening frame. Denny Shriver went two bases on an over-throw to first, and on to third on a weak pitch. Denny Newman's fly to short-field was sufficient to bring in the run.

In the third the Regina left-fielder got a line in the fielders circle and Betty Shriver's liner put her team up 2-0.

Doris Blase off in the sixth was a single, pulled around and advanced to the next station on Denny Newman's sacrifice.

scored on Betty Shriver's second hit.

## Establishment Of Women's Home Army In Australia

**SYDNEY.**—An AF-Cable "Organization of the Women's Army" to serve on the home front and release men for wartime service was announced today by the Army Minister Percy S. Spender.

Mr. Spender said the women would be employed as clerks, orderlies, telephone operators, canteen staff, and drivers of ambulances and dispatch riders.

He said the war cabinet reached this decision following an analysis of Australia's manpower resources.

The women would be given good nutrition and a symposium on "The Market Basket," which is a bulletin put out by the Bureau of Agriculture.

Mr. Spender said the women would be trained in the following:

- 1. The home front.
- 2. The army.
- 3. The navy.
- 4. The air force.
- 5. The medical services.
- 6. The transport services.
- 7. The communication services.

## Your Husband A Cop Or Postman? Feed Him Well

By MRS. GAYNOR MADDOX

The "Nutrition Yardstick" set up by leading dietitians recently measures the foods that should be included in every diet to strengthen national health, but housewives should consider the location of the family breadwinner while planning her daily meals.

If the man of your house is a policeman, postman, salesman or earns his living in active yet not strenuous outside work his daily calorie requirements in general should be from 2700 to 3200 calories. It is important that he gets plenty of complete protein in his diet to repair and build muscle tissue used daily in his job.

Here is a typical menu for a family of this type, and the recipe for the main dish on the dinner menu:

**BREAKFAST:** Orange juice, cooked whole grain cereal, bacon, muffins with creamed egg, coffee, milk.

**LUNCH:** Baked ham and lima beans, buttered onions, corn muffins, cabbage and celery salad, milk.

**DINNER:** Chunks juicy roast beef, baked veal steak with chili sauce, baked potatoes, buttered lettuce greens, fresh berry refrigerator pie, coffee, milk.

**BAKED VEE STEAK WITH CHILI SAUCE**

(Three Servings)

One and one-half pounds veal steak 1/2 cup flour, 1/2 cup onion, 1/2 cup tomato, 1/2 cup pepper, 1/2 cup shortening, 1/2 cup canned tomatoes, 4 tablespoons

chopped onion, 1/2 teaspoon tobacco sauce.

Trim excess fat from meat. Combine flour, salt and chili pepper. Pound into steak, first on one side and then on the other, with the edge of a plate. Heat shortening in heavy skillet, and when very hot, brown steak on both sides. Combine remaining ingredients and pour over steak in skillet. Cover of heat in oven (325 degrees F) for one hour.

**Tomorrow's Menu**

**BREAKFAST:** Baked apples, oatmeal, toast, coffee, milk.

**LUNCH:** Baked beans, brown bread, cold slaw, sugar, cranberry, tea, milk.

**DINNER:** Lamb chops, mashed potatoes and turnips, green beans, watermelon, coffee, milk.

**19-Year-Old Clerk**

**Most Photographed Girl In Britain**

LONDON, Aug. 27.—(CP)—Brenda Collier, 19-year-old tobacco shop clerk who went into war work a few months ago, is called the "most photographed girl in Britain."

The pretty face and blonde tresses of the Lancashire girl appear in news photographs that have been widely distributed in Britain and of hundreds of British girls working day and night in factories.

Brenda has been photographed more often than other girls not only because she is pretty but also because the electric grinder which she operates makes a spectacular lighting with its shower of sparks lighting her workbench.

As far back as 1938, Government started collecting the clippings from all "famous" girls. These were needed for the manufacture of felt, carpets and in the up-holstery industry. Hairdressers could be fined for throwing away such valuable material. People smiled at this new law (CP) and British hairdressers are being asked to see that the clippings from their shops be collected not once a day, but after each haircut, and sent carefully ashed.

It is calculated that an average salon of six to eight cubicles would daily yield enough hair to fill a waste basket. Multiply this by a few hundred thousand and you achieve an imposing figure.

**CHILDHOOD SUFFERERS**

**MAKE MUNITIONS**

As for the hundreds of plaits and curls which soon can be unearthed from the back of bureau drawers, a baby blue ribbon, these are especially valuable, because of the length of the hair, for the hair is used in the manufacture of felt, for armaments.

Long fair hair also plays an important part in the production of instruments in connection with meteorology. And here is where the hair should be long and straight, and boy collars become a means of

national defense—the longer the clippings from women's heads, the more useful. The singed heads of the past were not so productive. In the days when wigs were worn, hair was used in the production of every European country would offer their long, thick plaits to the hair cropper who visited the annual fair. The proceeds usually went to buy a new petticoat, fancy shoes or a coveted trinket, and a bonnet would usually hide the shorn head until the hair grew long again. Now the Yorkshire Hair-

dresser's "Action Committee," which has undertaken to see that this hair-saving movement should be carried out, has made it known that although selected hair, after sorting, combing and treatment, fetches a good price, the hair is its ultimate form of toupees or transformations. An average head of hair is not worth more than a dollar, contrary to popular belief.

Just address your request to the McCoy Health Service, enclosing a large self-addressed, stamped envelope and six cents for postage.

## English Women Find Short Bobs Goes Long Way Toward Beating Hitler

By ROSSETTE HARGROVE

LONDON.—The women of Britain have been told that their hair can help

Human hair can be used in the manufacture of plastic, and plastics in turn find innumerable uses in the manufacture of armaments and in other war industries.

The originator of the "Save Your Hair" movement, James Jones, of Leeds, chairman of the Hairdressers' association, has the support of the Ministry of Supply. Women are being asked, each time they go to the hairdresser, to see that their hair clippings are saved. They are being asked, also, to dig out those tresses which they have been treasuring, for sentimental sake, since they say they decided to have modern coiffure fashion and have them shorn.

As far back as 1938, Government started collecting the clippings from all "famous" girls. These were needed for the manufacture of felt, carpets and in the up-holstery industry. Hairdressers could be fined for throwing away such valuable material. People smiled at this new law (CP) and British hairdressers are being asked to see that the clippings from their shops be collected not once a day, but after each haircut, and sent carefully ashed.

It is calculated that an average salon of six to eight cubicles would daily yield enough hair to fill a waste basket. Multiply this by a few hundred thousand and you achieve an imposing figure.

## McCoy Health Service

When someone mentions the word poison, the first thing we think about is strychnine, arsenic and, or some other deadly drug, and when I refer to self-poisoning, it is with the thought of having any of these in mind, although the violent and destructive poisons which the organism has already prepared to be eliminated.

Another term for self-poisoning is auto-intoxication, or systemic poisoning, and many of the best investigators are in agreement with me that this condition is the fundamental cause of all disease.

Those of my readers owning automobiles have had it demonstrated time and again that the performance of the car depends upon the quality of the fuel used, as well as when the delicate intake of the engine is not kept free of carbon and other impurities.

Self-poisoning is the great English surgeon once stated the two most important factors in relation to maintaining bodily health are diet and drainage. In other words, sufficient amounts of the proper kinds of food, in the proper combinations are essential as fuel to maintain the body organism and to repair and replace worn tissues.

By drainage of course he meant elimination from all of the waste products of the body, which are designed for that purpose, such as the kidneys, bowels, and skin, and of course the lungs.

A large percentage of the sickness prevalent today may be traced to imperfect elimination from the intestinal tract, and it is obvious that delayed action in evacuating poisonous waste brings about a reabsorption into the blood stream of those very poisons which the organism has already prepared to be eliminated.

Those suffering from self-poisoning are soon made aware of it by symptoms of exhaustion, weakness, and a general lowered resistance against invasion of disease. A body with such lowered vitality is easy prey for disease germs which are seeking suitable soil in which to grow and flourish. It is also possible for an excess of poisons to accumulate in the body because of wrong thinking habits and the destructive emotions, such as anger, fear, worry, envy and jealousy, may play an important part.

Those readers interested in receiving further information on this interesting subject are invited to send for Dr. McCoy's special article entitled: "Auto Intoxication" and "Curative Diet."

Just address your request to the McCoy Health Service, enclosing a large self-addressed, stamped envelope and six cents for postage.

## "Little Eva" Dies In Boston At Age Of Ninety-Four

BOSTON, Aug. 27.—(CP)—Mrs. Cordelia Howard Macdonald, the original "Little Eva" who thrilled thousands of theatre-goers by her portrayal of Miss Beescher Stevens in the role of "Uncle Tom's Cabin," died at Cambridge, Mass., today.

Her father, George C. Howard, was a native of Halifax, N.S. Mrs. Macdonald's mother, Caroline Fox Howard, he played later in the original version of the famous play, and their daughter made her debut in the role of "Little Eva" at the age of four.

Howard presided the play for eight years in this country and abroad and retired to Cambridge with a fortune. Mrs. Macdonald continued the role of Little Eva for those eight years, and retired from the stage when her family settled in Cambridge.

She married Edmund J. Macdonald, who conducted a bookbinding business. He died in 1887.

And died will be answered. Large, small, be enclosed, write an envelope, not exceed 100 words. Address McCoy Health Service in care of this paper.

## Points For Parents

By EDITH THOMAS WALLACE

This 6-7 Not This 6-7

Even sickness does not justify the failure to teach children consideration for others.

Modern Puzzles

THE EIGHT IS MISSING

Did you ever know what happens when you leave out the 8? If not, just look at the peculiar series of numbers below and see if you can solve the mystery. All yours to do is work out the first two or three missing numbers in this series, and you'll easily be able to guess the others.

1. 1234567 times = equals 11111111

2. 1234567 times = equals 22222222

3. 1234567 times = equals 33333333

4. 1234567 times = equals 44444444

5. 1234567 times = equals 55555555

6. 1234567 times = equals 66666666

7. 1234567 times = equals 77777777

8. 1234567 times = equals 88888888

9. 1234567 times = equals 99999999

Answers tomorrow.

## Nine Teachers in City Schools Resign Posts

Resignation of nine members of the staff of the Edmonton public school board was accepted at a meeting of the group Tuesday night.

Miss Dilly Davies and Miss Nellie Atteberry resigned following their recent marriage. Charles King retired through having attained the teachers' retirement age. Miss Beatrice L. Williams, W. Pilkington and R. A. Knudson retired through having accepted the call to various branches of war service. Miss M. O. Elderton retired through ill-health. Others who left the staff were Miss Alice E. Garrett and William Thompson.

**ADDED TO STAFF**

T. V. "Tommy" Newlove is taken on the staff as of September 1, following his discharge from the R.C.A.F. through medical disability. He was also granted one month's leave of absence in which to continue the work of organizing and maintaining the Edmonton School Boys' Band, with which organization he was connected for many years prior to enlisting.

Mr. Newlove will replace Chet Lamberton, who will remain as an intermediate teacher on the school board staff and who is expected to act in an assistant's capacity to Mr. Newlove.

Members agreed to permit the Canadian Red Cross society to solicit teachers to act as pupils for the assistance in the coming drive for aluminum. The campaign, as far as the school is concerned will be conducted at a later date through the postponement of school opening.

**EXPENDITURE INCREASE**

Tentative offer of \$4,800 for the land and building on 22 street opposite 104 avenue owned by the school board was referred to the property committee.

Approval was given on a preliminary estimate of \$7,412 in connection with the construction of additions to the Garfield school. An amount of \$800 will be given for the construction of galleries in the gymnasium of the school extension. Tenders were called for the purchase of the old C. J. Smith school building and lots. The only bid received to date was considered "much too low" by all members.

Comparative statement of expenditures as at June 30, 1940 and June 30, 1941, showed an increase in 1941 of \$2,742.66. Members considered this satisfactory in view of present conditions. Discussion on the matter of a higher expenditure for free text books was allowed for further explanation.

## Exportation Ban On Feed Grains

OTTAWA, Aug. 26.—(C.P.)—Exportation of feed wheat, oats and barley or mixtures of oats and barley with other feed grains is prohibited except by special permission from the trade and commerce department, under government orders published Thursday night in an extra edition of the Canada Gazette.

The orders were signed by Agriculture Minister Gardiner and take effect immediately.

One order prohibited exportation except under special license of "oats, barley and any combination or mixture of them with other feed grains, whole or ground," and the other referred to "wheat of feed grade four or lower grades."

The ban of such exportation followed an earlier prohibition on export of millstuffs from the Dominion, which was imposed last week. It was imposed because of a shortage of feed for hogs and cattle, particularly in eastern Canada.

The millstuffs situation will be reviewed by the agricultural supplies board at a meeting scheduled for today. This particular control is on a week-to-week basis.

## Auto Missing

Holder Selvin, Viking, reported loss of his 1941 Ford sedan, from in front of the Royal George hotel, 50 street, through the night Tuesday. The car carries Alberta license D-438.

Water pipes, recently found in use in England, are said to be more than 800 years old.

## Balloon Holders

Members of the Women's Auxiliary Air Force take a balloon barrage in hand to release RAF men for more important duty in England. If all right, WAFFs will get such jobs for duration.

## School Opening Delay Endorsed By City Board

Postponement of school opening until September 15, or later, depending upon the cessation of the present epidemics of infantile paralysis and sleeping sickness, was concurred in at the regular meeting of the Edmonton public school board Tuesday night.

Health supervisor for the school board, Dr. G. E. Swallow, explained to the trustees that the regulations in force by the provincial health department, applies to all which takes in students of elementary and intermediate school age, and a "goodly percentage" of high school students.

This particular wave would seem to strike at adults particularly," Dr. Swallow said. "The epidemic is made all the more dangerous in view of the fact that it is accompanied by sleeping sickness."

He added that this was the first time he had ever heard of poliomyelitis and sleeping sickness coming concurrently.

## Two Persons Hurt In Freakish Crash

Two persons were injured in a freakish three-way collision at 104 avenue and 98 street at about 6:30 p.m. Tuesday.

Earl C. Beecher, 10715 98 street, was rendered temporarily unconscious and may have sustained head injuries when thrown from his motorcycle after the machine collided with a light delivery truck and a heavy delivery truck.

Beecher was taken to the Royal Alexandra hospital by Const. Stanish.

Beecher was said to have been picked up from the pavement 42 feet from the spot where his motorcycle came to rest.

The police report stated Lush was driving his truck west along 104A avenue, while the motorcycle, ridden by Beecher, was going north on 98 street.

The motorcycle is said to have collided with the front bumper of the truck, throwing the rider, the riderless machine then careened across 104A avenue to the southeast corner of the intersection, striking Costello before it halted. Lush was not injured.

## Group Concert Aids War Fund

Proceeds of the McCauley concert group entertainment at East Salisbury will help Tuesday night, in aid of the Queen's Canadian fund for Air Raid Victims, amounted to \$28.00, double the amount raised at a previous concert in that community staged by the McCauley group. J. J. Hodgkinson, organizer of the group, wishes to thank the East Salisbury committee for their efforts in raising the amount, which has been turned over to the air raid fund.

Due to the health regulation banning parties under 17 years from participating in a public place, the McCauley group had to make several changes in their concert program. New members appearing with the group Tuesday night were Missa Minnie Foster, Margaret McDonald, Gene Moore, Stella McDonald and William Lusk.

Next concert by the group will be staged in conjunction with the barn opening celebration at the Vail farm, near Pieville, on Friday.

Home cooking sale will be held as usual on Saturday in the city market building.

## WANT VICTORY FOR OPPONENTS OF HITLER

Observers say an Ally Sentiment Grows in Iceland  
Shock of Nazi Conquest  
Of Czechoslovakia Cut  
Into German Popularity

By FRANK SMOTHERS

REYKJAVIK, Iceland.—A Day In August—(CPN)—Growth of pro-Ally sentiment in this little land to whose defence America is committed has come to pass against considerable counter-forces.

Mosquitoes May  
Carry Virus Of  
Dread Disease

WINNIPEG, Aug. 27.—(CPN)—Public health authorities in Manitoba and Saskatchewan Tuesday moved to intensify the study of infantile paralysis and sleeping sickness as sharp increases in the latter disease were noted in both provinces and a serious outbreak occurred in Alberta within recently two days from the disease.

Alberta reported four new cases of encephalitis, and one death, bringing the total to 310 and 660 respectively. There have been five cases of infantile paralysis and one death from that disease, bringing the total to 310 and 660 respectively.

FIFTY NEW CASES  
While no new cases of poliomyelitis have been reported in Saskatchewan, sleeping sickness cases jumped to 259 with almost 30 new cases reported. One death brought total Saskatchewan fatalities to 10. There have been 210 cases of infantile paralysis and one death from that disease, bringing the total to 310 and 660 respectively.

In Manitoba, where the two epidemics began, 21 new cases of sleeping sickness and 18 new cases of poliomyelitis brought totals to 310 and 660 respectively. There have been five cases of infantile paralysis and one death from that disease, bringing the total to 310 and 660 respectively.

With 15 cases of poliomyelitis reported in British Columbia, with one death, the new reports brought totals to 310 and 660 respectively. There have been five cases of infantile paralysis and one death from that disease, bringing the total to 310 and 660 respectively.

MOSQUITOES RESPONSIBLE  
The theory mosquitoes may be the chief carriers of the disease will be investigated for the Manitoba provincial department by John McClinton, science graduate of Manitoba University and first man of Winnipeg anti-mosquito campaign, who will gather mosquitoes from sections of the province where sleeping sickness has broken out.

Authorities here are of the opinion there are five types of mosquitoes which can carry the disease among humans, and the spread of the disease is caused by the same virus which attacks horses, mules and cattle.

Dr. K. M. King, head of the Entomological laboratory at Saskatchewan University, will conduct investigation along similar lines.

ALBERTA WOMAN IS  
STRICKEN IN EARLY  
TORONTO, Aug. 27.—(CPN)—A 36-year-old sleeping sickness victim, a woman named Mrs. A. A. Smith, was stricken with the disease in the early stages of the epidemic in the latter part of the year.

The patient, whose name was withheld by health officials, had arrived in Toronto recently to visit a daughter.

Yesterday also the first death from infantile paralysis in Toronto this year occurred. The victim was a two-year-old boy, a resident of Toronto, who was stricken while away from the city by the disease.

The case first had been diagnosed as sleeping sickness but later it was determined that it was poliomyelitis.

Nazi Claim Russ  
Army 'Annihilated'  
BERLIN, Aug. 27.—(AP)—The German high command claimed today it had annihilated the 22nd Russian army in a pincer encirclement behind the front lines, killing more than 40,000 Russians and capturing almost 80,000.

The battle occurred, the Germans said, in the north-central sector between Smolensk and Lake Iznia, resulting in capture of the 22nd Russian army, 275 miles west of Moscow and 230 miles south of Leningrad.

The previously reported front established by reports from both sides has run through the vicinity of Smolensk, where the German army consequently expressed belief the southern army would continue to fight eastward toward the rich Don river basin between the Dnieper and the Don.

The Nazis have claimed capture of 40,000 prisoners, but Russian foothold on the west bank of the Dnieper south of Kharkov, however, the Germans consequently expressed belief the southern army would continue to fight eastward toward the rich Don river basin between the Dnieper and the Don.

Today the majority definitely believe in the victory for the opponents of Hitler, according to reliable observers on the spot, even though the visible or audible signs of popular enthusiasm for the Allies are not yet apparent. The latter correspondents who accompanied the last American envoy here.

The latter signs are not particularly significant in a population as restrained in expression as are the modern Icelanders. Until the capture in Europe came to its end, the latter signs of the victory of Czechoslovakia—there was a lot more pro-German sentiment than now exists. The latter signs are not particularly significant in a population as restrained in expression as are the modern Icelanders. Until the capture in Europe came to its end, the latter signs of the victory of Czechoslovakia—there was a lot more pro-German sentiment than now exists.

SPECIAL FACTORS  
But there were special factors in Iceland's case. One of them was the high honor, at least verbal, that the Nazis heaped upon the country and the individuals, as did many other people now subjected by the Nazis or in conflict with them.

One of them was the high honor, at least verbal, that the Nazis heaped upon the country and the individuals, as did many other people now subjected by the Nazis or in conflict with them.

Equipment Sent  
Canadian Army  
Highly PraisedBy R. K. CARMICHAEL  
SOMERSET, N. B., (CPN)—The Canadian Army, Tuesday praised highly the equipment received for the Canadian forces from the Dominion.

Speaking to newsmen during Prime Minister Mackenzie King's visit yesterday to the Canadian forces, he said that everything from boots and ballistics to new guns and carriers had proved of the highest quality.

Editors Praise  
Efficiency Of  
War Industries

OTTAWA, Aug. 27.—(CPN)—Members of the party of Canadian editors who are on a tour of eastern Canada, Tuesday praised highly the efficiency of war industries in interviews Tuesday said they had been made during the past year in training the fighting forces, mechanization of the army and munitions production.

Several of the group before their departure for Brockville, Ont., en route to Quebec province and the Maritimes, expressed belief the

Mariner Treks  
100 Miles On  
Scant Rations

LONDON, Aug. 27.—(CPN)—A four-day trek through 100 miles of bushland with only rice, native roots and wild game to eat was described by William Mann, a 30-year-old merchant marine engineer who has arrived home after a long voyage during which he was tormented twice.

He said he was engineer on an Allied ship when he was torpedoed the second time. He was the only Englishman on board, but most of the officers could speak English with some difficulty.

## Work Of Alberta Artists

The work of two Alberta artists, Nicholas de Grandmaison and Bernard Middleton is being shown at International Business Machines Company's exhibit of 103 paintings representing the "Contemporary Art of the Western Hemisphere" at the Canadian National Exhibition in Toronto. The top picture is by de Grandmaison and is entitled "Weasel Tail." The picture at the bottom is "Sheep River Valley—Okotoks" by Middleton. Following its showing at the Canadian National Exhibition, this collection will tour the leading museums of Canada. Many paintings in this collection were originally shown at the New York and San Francisco World's Fairs, 1939 and 1940, though numerous canvases were especially chosen for exhibition in Canada.

☆☆☆

**WOULD FERRY PLANES**—Pal Thomas, New Yorker, now a C.A.A. instructor in Los Angeles, would like to ferry planes for Uncle Sam. She's two years below minimum age, but hopes for break.

## United Against Nazism

Pleading for support of the President, Rear Admiral Richard E. Byrd, on leave from the Navy, asked a national emergency rally of 15,000 people in Madison Square Garden, New York, for "a spontaneous awakening of all people, determined on dynamic unity, sweat and sacrifice" to fight Nazism. Supreme Court Justice Owen Roberts, pictured above, right, with Byrd at the rally, proposed "world union" for permanent peace after the war.

**Drum Majorette Shirley Ackerman** cools her torrid toes in the sink after picking them up and laying them down over many miles of pavement in Legionnaire parade at Rochester, N.Y.

## All-Star Miss

**Football's biggest names** will be in there to do or die for Margaret Haun, above, Northwestern senior chosen queen of All-Star game in Chicago, Aug. 28.

☆☆☆

**Russian soldiers and collective farmers** watch flames consume a German raiding plane after it was shot down.

☆☆☆

**Mrs. Simone Schiffrin** hugs her son, Andre, six, as they arrive in New York aboard the Spanish steamer Ciudad de Sevilla, which brought 555 refugees to the Land of Freedom from Lisbon. Mrs. Schiffrin and the boy left their home in Paris in December, 1940, and were forced to stay in an internment camp at Casablanca while awaiting passage to America.

## Blitz In Warfare And In Farming

The race of Russian agriculture against German blitz warfare, possibly in the rich Ukrainian breadbasket, is symbolized by this radiophoto of Russian ruralists harvesting their crops on a farm scarred by war. Note the skeleton of a German plane brought down on the farm.

☆☆☆

☆☆☆

**"SIGNING OVER" SYRIA**—General Sir Henry Wilson of Britain signs armistice ending hostilities in the 30-day Syrian campaign. On Wilson's right is General Catroux of Free French forces, which take over until end of war, when Syria will get independence.

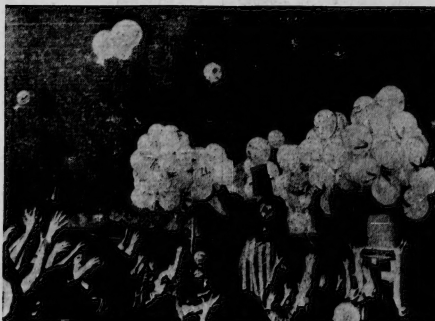

## President's Son In London

**Captain Elliott Roosevelt**, son of the president, viewing London from a rooftop with Major D. W. Hutchinson, left, of the U.S. Army Air Force now in London on observation duty. Elliott came to London from the midatlantic conference of President Roosevelt and Prime Minister Churchill.

☆☆☆

☆☆☆

**UP VICTORY!**—"Uncle Sam" and British marines release balloons from excursion boat at start of "Bundles for Britain" sail up Hudson from New York. Balloons carried V-shaped cards inviting the finders to enlist in crusade for Victory.

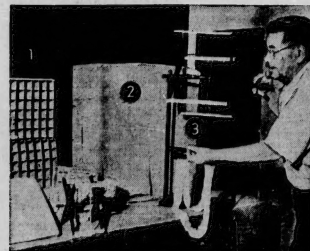

**HORSE COMES BACK**—Seven P.M. gasoline curfew makes Wilfred Calvet, Quebec's oldest cabbie, grin in anticipation of a big year. Calvet, now 70, once drove city horse cars.

## American-Jap Senator In U.S.

While Washington worries about trouble with the Nipponese across the Pacific, Sanji Abe, member of the Hawaiian Senate and first American citizen of Japanese ancestry to be elected senator on U.S. territory, pays a visit to Los Angeles with his daughter Bernice. He says there has been no recruiting of American-Japanese in Hawaii for the Jap army.

☆☆☆

**Solution to silk shortage** offered by William Vandrasek of Chicago is to grow your own. Process begins in cardboard box incubator (1) where eggs are hatched into silkworms. These are placed in egg crate compartments (2) to feed on mulberry leaves and make cocoons. Then Vandrasek unwinds cocoons and reels up skein of silk (3) formed by 110 of them.

## Red Graybeard

This Red graybeard is Ivan Linkov, oldest member of the "Avanguard" Collective Farm Volunteer Fire Brigade, according to Soviet caption. Despite his years he vigilantly guards collective farm property from bomb fire. Radio-photo flashed from Moscow to New York.

## Men's Three-Piece Suits!

A "Get-Ready-For-Fall" Saving; Sale Price On These Handsome Suits! See Them Early in The Day Thursday!

We made allowance for every taste—for every figure type—and for "hard times" budgets—when we planned this big suit event for you! There are double breasted coats and single breasted coats—semi-drape and conservative cuts—shades of navy, blue, grey, brown and teal. That's real variety for you! All have notch lapels—all have the smartest of striped patterns. Materials are fine, smooth, hard finished wool worsteds. Excellent tailoring distinguishes every one! Sizes 36 to 44. **\$18.50** 3-PIECE SUIT. Extra Trousers, PAIR, \$4.00

EATON BUDGET PLAN TERMS may be arranged, if desired.

## Women's Fall Coats! New..Smart..Thrifty!

A "between-season" type you'll wear on cool evenings now—and on into Fall and Winter. Indispensable on your vacation jaunts! Favorite tailored styles—some showing this season's fashionable fitted lines—others on well cut boxy lines. Wool tweeds and fleeces—soft monotonous, plaids, checks and flecks. Beige, grey, green, blue, grey, rose, rust and navy. Nicely lined and interlined with chamolis (sheepskin) to the hips. Sizes 14 to 44. **\$15.95** EACH.

—EATON BUDGET PLAN TERMS may be arranged, if desired.

## Our Present Stocks of Silk Hosiery

—Are irreplaceable, due to the demand of raw silk for war purposes. In an effort to distribute our present stocks of silk hose as widely as possible, sales will be limited to not more than four pairs to a customer. As it is impossible to keep our assortment of sizes and colors complete, we request that you shop in person limited of stock, ordering by telephone or mail.
